To Whom It May Concern:

I have known Lejla Hadzimuratovic for almost a year. She runs a non-profit rabbit rescue group called Bunny World Foundation, and takes in huge numbers of sick, abandoned and unwanted rabbits, including many litters of sick babies. She brings the unhealthy rabbits in to me for exams and treatment, and nurses them back to health. She has brought numerous rabbits in for me to spay and neuter before being adopted out to new homes. Lejla is a caring, responsible individual, trying to help unwanted rabbits get a second chance at a happy life. Please feel free to contact me with any questions.

Sincerely,

Sari Kanfer, DVM
